

# Haddenham Solar Streets

## COMMUNITY SOLAR PROJECT

12 Panel  
4kWp system  
Installation from  
just £4,000\*  
\*average 3-4 bed  
house

### CLEAN ENERGY – LOWER BILLS – CUT CARBON EMISSIONS

Community group Zero Carbon Haddenham is pleased to support this community solar panel scheme. Solar PV installer IDDEA is making discounted panels available to homeowners and businesses in Haddenham. For every completed installation, a contribution will be made towards a Community Fund to be used for Green Projects in Haddenham.

A £50 donation will be given by IDDEA to a community fund for every domestic solar installation and a minimum of £100 for a commercial installation to be used towards green projects in our community – so it's a win win

renewable energy systems

ZERO-CARBON  
HADDENHAM

Normally, one of IDDEA's team would visit your home, design your system and show you the financial benefits and carbon emission savings. Because we are not in normal times, we will do all the design and advice over the phone and across email with you. The installation can go ahead even if we are in lockdown as it is classed as permitted Construction.

Established in 2008, IDDEA have installed over 1,000 solar projects across the South and are committed to supporting communities to take action against climate change.

If you want a quote immediately then email [info@IDDEA.co.uk](mailto:info@IDDEA.co.uk) or phone 01380 726999 and remember to quote "Haddenham" Solar Streets

## FINANCIAL AND ENVIRONMENTAL BENEFITS

- Take control of your energy costs
- Take action against climate change
- Improve your home's energy rating
- Generate clean energy
- Reduce your carbon emissions
- Become more self-sufficient

Zero Carbon Haddenham is pleased to support community actions with opportunities for bulk discount benefits.

The plan is for Zero Carbon Haddenham to work in support of this initiative, while IDDEA contract directly with property owners.

IDDEA are running a similar project in neighbouring Thame and several others including Frome, St Albans and Henley.
